SKILLS

- **Programming Languages:** Proficient in Kotlin and Java for Android application development with strong command over clean, maintainable, and scalable code practices.
- **Android Jetpack Components:** Experienced in using ViewModel, LiveData, Navigation, Room, WorkManager, and DataStore to build modern, robust, and lifecycle-aware Android applications.
- **Database Management:** Hands-on experience with Room Database and SQLite for local data persistence, database migrations, and efficient query optimization.
- **Development Tools:** Proficient in Android Studio, with strong debugging, performance profiling, and emulator testing skills.
- **Version Control:** Experienced with Git and GitHub for source code management, branching strategies, and collaborative development workflows.
- **Architecture:** Strong understanding of MVVM architecture, ensuring clear separation of concerns, improved testability, and maintainability.
- **Debugging & Troubleshooting:** Experienced in identifying and resolving runtime crashes, ANRs, and UI inconsistencies using tools like Logcat, ADB, and Profiler.
- **Android SDK & UI Design:** Proficient in utilizing Android SDK, Material Design principles, and Jetpack Compose to deliver intuitive, user-friendly, and visually appealing applications.

WORK EXPERIENCE

Skyraan Technologies

Junior android developer

 01/2024 - PRESENT

- As an Android Developer at Skyraan Technologies, I was responsible for designing, developing, and maintaining high-performance mobile applications. My role involved collaborating with cross-functional teams to define, design, and ship new features, as well as troubleshooting and optimizing app performance.
- I consistently adhered to best practices in mobile development, ensuring the delivery of high-quality code and seamless user experiences.

PROJECT

Holy Bible App

 [Link](#)

- Tech Stack: Kotlin, Jetpack Compose, MVVM, Room Database, Retrofit, ExoPlayer, Material Design, FCM
- Developed and published a feature-rich Bible app with over **2 million+ active users**, offering a smooth, modern, and intuitive reading experience.
- Implemented core functionalities such as verse highlights, bookmarks, and personal notes, allowing users to customize and save their reading progress seamlessly.
- Integrated Room Database for efficient local data storage and offline access to Bible content.
- Designed the UI using Jetpack Compose and Material Design principles, ensuring a clean, responsive, and visually appealing interface.

FM Radio App

- Designed and developed using Kotlin and Jetpack Compose for a clean and responsive UI.
- Integrated ExoPlayer for reliable live audio streaming and playback control.
- Implemented channel search, favorites, and recent stations functionalities for user convenience.
- Optimized performance for smooth streaming even on low network connections.
- Managed app data using Room Database for storing favorite and recent stations.

Quran App

[Link](#)

- Developed and published a Quran app to provide users with a smooth, modern, and interactive reading experience.
- Utilized Room Database for local data storage, enabling offline access to Quran chapters and verses.
- Optimized performance for fast loading, low memory usage, and smooth playback on all devices.
- Integrated search functionality for quick access to specific surahs and ayahs.

EDUCATION

2020 - 2024

DR.N.G.P INSTITUTE OF TECHNOLOGY - COIMBATORE

- Completed B.Tech Information Technology with 8.49 CGPA

2019 - 2020

BISHOP UBAGARASWAMY HR SEC SCHOOL - TIRUPPUR

- Completed Higher Secondary with 68%

2017 - 2018

BISHOP UBAGARASWAMY HR SEC SCHOOL - TIRUPPUR

- Completed SSLC with 79.2%

ACHIEVEMENTS

- Awarded **Best Performer of the Year 2025** at Skyraan Technologies for outstanding contributions to Android development and app performance optimization.
- Developed a Bible app with 2 million+ active users. [Link](#)
- Achieved **Elite GOLD** certification in Programming in Java with a score of 90% from NPTEL.
- Successfully completed Problem Solving Through Programming in C with a score of 72%, certified by NPTEL.
- Solved 70+ problems on LeetCode, strengthening core data structure and algorithms skills
